23 MS. MARTINEZ: My name is Mary Elizabeth

24 Boyer Martinez, B-O-Y-E-R.

25 I'm a Las Vegas -- I came to Las Vegas in

0036

1 1952. I don't want the Federal Government in our
2 state. I don't want your poison in our state. And I
3 don't want your scientists in our state. You have no
4 jurisdiction. This is a republic. We are a state
5 sovereign. We tell the Feds what to do. You think,
6 Mr. DOE leader, and all your friends, that you have
7 jurisdiction. That would only be because you claim to
8 be a part of the corporate structure, which means the
9 money people. You don't belong here. Get out of our
10 republic. I don't want your poison. You can't define
11 the problem by science. The problem is not science.
12 The problem is jurisdiction. You want to ram your
13 Federal corporate garbage down the people's throats.
14 Don't forget, in a republic, the people are the boss.
15 Get out.
